## **DETAILED ACTION**

### ***Information Disclosure Statement***

1. The listing of references in the specification is not a proper information disclosure statement. 37 CFR 1.98(b) requires a list of all patents, publications, or other information submitted for consideration by the Office, and MPEP § 609 A(1) states, "the list may not be incorporated into the specification but must be submitted in a separate paper." Therefore, unless the references have been cited by the examiner on form PTO-892, they have not been considered.

### ***Specification***

2. The disclosure is objected to because of the following informalities: paragraph 15, line 5, "22" should be changed to "32". Appropriate correction is required.

### ***Claim Objections***

3. Claims 6-9 are objected to because of the following informalities: "includes lip flanges extending over said upper and lower walls" should be changed to "includes a lip flange extending over said lower wall" because the lip flange (68) is only shown and described as extending over the bottom wherein the top rail cap (72) extends over the upper wall (see Fig 5). Appropriate correction is required.

***Claim Rejections - 35 USC § 102***

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 10-12 are rejected under 35 U.S.C. 102(b) as being anticipated by Furubayashi et al.

Furubayashi et al. disclose an inner structural panel (door guard bar 11) comprising: a support surface (main body portion 12) having a plurality of ribs (parallel grooves 12a) extending laterally along the support surface; and a reinforcing panel (patch 16) secured to the ribs to box the inner structural panel.

***Allowable Subject Matter***

6. Claims 1-5 are allowed.

7. Claims 6-9 would be allowable if rewritten or amended to overcome the objection(s) set forth in this Office action.

8. Claims 13-18 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

9. The following is an examiner's statement of reasons for allowance: the prior art does not show or make obvious Applicant's tailgate assembly with a reinforcing panel boxing in ribs on an inner structural panel.

Art Unit: 3612

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

10. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
